Maestro Lisco, head of **Daito Ryu Italy** and National Technical Director of Aikido Iwama Ryu U.I.S.P., is pleased to invite all martial arts practitioners to come and discover the **martial art from which Aikido and many styles of jujitsu originated.**

The roots of the ancient and noble martial art of Daito Ryu Aikijujutsu date back to 1200 A.D. O'Sensei Ueshiba, the founder of Aikido, was a practitioner and teacher of this martial art for almost 20 years before drawing out therefrom the principles on which he later based Aikido.

Kondo Sensei is the leader and only successor officially recognized by the Daito Ryu Aikijujutsu school. Direct student of Maestro Takeda Tokimune, the son of Takeda Sokaku, who was, at his time, the teacher of O'Sensei Ueshiba.
